Transferring saves from your computer (or from my site) is so simple.

All you do is copy & paste "epsxe000.mcr" into **epsxe > memcards** and select *Yes* to replace the old one.

"epsxe000.mcr" is case sensitive so make sure the file you're bringing in here is named exactly that.

Remember, you load this MCR memory card file by loading the game and proceeding past the title-screen.

DON'T try to load it via ePSXe's load state feature. MCR memory card files are not emulator save states.

I'm using *Astro File Manager* in this sample, but you can use any file manager app you want to move
